Dear Sir

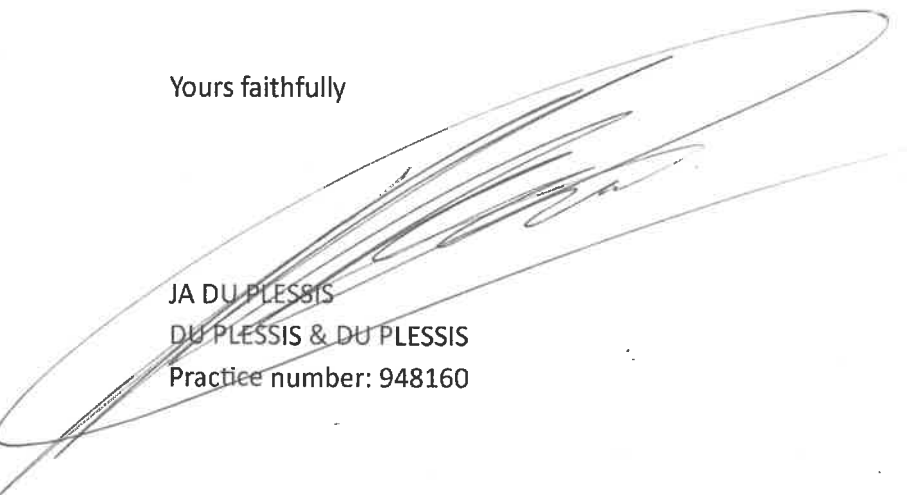

TURNOVER

THE SOUTHERN AFRICAN LABORATORY DIAGNOSTICS ASSOCIATION

Herewith we, the auditors for the above mentioned Association would like to confirm that the turnover for the Association is less than R 10 000 000 per annum for the financial year ended 31 December 2024. The Southern African Laboratory Diagnostics Association is therefore considered an Exempt Micro Enterprise and as a result is automatically rated a level 4 contributor to BEE.

We trust you find it in order.

Yours faithfully
